## **DETAILED ACTION**

### ***Election/Restrictions***

1. Applicant's election of Species B, figure 6 in the reply filed on August 31, 2004 is acknowledged. Because applicant did not distinctly and specifically point out the supposed errors in the restriction requirement, the election has been treated as an election without traverse (MPEP § 818.03(a)).
2. Claims 6, 8 and 11-16 withdrawn from further consideration pursuant to 37 CFR 1.142(b) as being drawn to a nonelected species, there being no allowable generic or linking claim. Election was made **without** traverse in the reply filed on August 31, 2004. Applicant indicated that claims 1-5 and 7-10 are readable on elected Species B, but claim 8 is dependent on claim 6. Claim 6 is hereby withdrawn from further consideration.

### ***Claim Rejections - 35 USC § 112***

3. The following is a quotation of the second paragraph of 35 U.S.C. 112:  

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.
4. Claim 2 is rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

Claim 1 recites a "valve assembly" having an intended use in a washer system. Claim 2 recites that the housing of the valve assembly is a nozzle body of a washer

nozzle of the washer system. It is uncertain whether applicant is claiming a combination of a valve assembly and a washer system or a subcombination of a valve assembly.

***Claim Rejections - 35 USC § 102***

5. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

6. Claims 1-5, 7, 9 and 10 are rejected under 35 U.S.C. 102(b) as being anticipated by Dewitt et al. (5,657,929).

Dewitt et al. discloses a valve assembly comprising: housing 36, 72; at least one outlet 72; a check valve 40, 58; a filter 76; a spring 62.
